

“One of the first, always the best!”

Dear Store Manager or Buyer,

Please consider carrying **Nature’s Hand** granola products in your store.

Nature’s Hand has been making *premium all-natural granola products* in the Upper Midwest for **over 35 years**. Now they expanding into our neighborhood and I want to be able to buy it at my local store.

Their products contain healthy ingredients like *soy* which is rich in **iron** and **omega 3 fatty acids**, and **whole grains** which are **high in fiber** and contain **antioxidants** and which have been shown to reduce the risk of heart of attack, diabetes and some forms of cancer.

Unlike a lot of other snacks and cereals, Nature’s Hand granolas have ***no trans fats*** and contain ***no added salt, preservatives or artificial flavors***. And their products are *naturally sweetened* with brown sugar and honey... so they taste GREAT too! And they’re made right here in the U.S.A.

The people at Nature’s Hand have also assured me that they work hard to create attractive programs and promotions for all of their store partners (more opportunity to buy a product I love at a great price!).

To request product samples and information, you can email to info@natureshand.com or call toll free to (866) 660-HAND.

Thanks for your consideration!
